

Rittman Elementary School

is collaborating with

Plastics R Unique!

**Rittman Elementary School has joined the
CAP (Caring About Planet) program!**

Students will work with teachers and mentors to create lifetime habits to care for our planet. The goal is to collect as many caps and lids which will be recycled and turned into a student bench for our playgrounds.

We need your help in collecting clean caps and lids for our program!

Acceptable Caps:

- Small caps: food grade containers and household items
- Snap on: butter tub, coffee can, yogurt lids
- Small twist: medicine, drink bottle, milk caps
- Large twist: detergent caps
- Spouts: squirt condiment caps
- Flip top: ketchup caps

Unacceptable Caps:

- Any caps and lids with metal
- Pumps with metal springs inside-lotion
- Medical supplies

****Please be sure these caps and lids are cleaned before your child brings them to school!**
