

March 13<sup>th</sup>, 2020

Dear Parents and 7<sup>th</sup> Grade Students,

Based on the urging of the State of Ohio, Ohio Department of Education, and Governor in regards to the Coronavirus, our school district will not be in session from Monday, March 16<sup>th</sup> through April 3<sup>rd</sup>. Because of this, the grade-level team has compiled a list of assignments and resources to continue academic instruction at home. Our goal is to provide review and practice materials that will allow students to maintain important skills until we return to school.

### **English Language Arts**

Please complete the following assignments over the next few weeks.

- 1. Read “The Grapes of Wrath by John Steinbeck with Analyze the Text Questions**
- 2. Figurative Language Review WS**
- 3. Test Practice Questions #2 (Read, complete the multiple choice, and create an outline plan for your argument essay)**
- 4. Continue to work on ELA Khan or i-Ready Lessons (if you have internet access)**  
**(Remember that all 19 lessons of ELA Khan are due by the end of the 4<sup>th</sup> 9 weeks!)**

Please visit my Google Classroom to access these and other review materials or contact the middle school office for a hard-copy set. If you have any questions or concerns, feel free to contact me at [ritt\\_ckrauss@tccsa.net](mailto:ritt_ckrauss@tccsa.net).

### **Math**

*Options:*

- 1) The students may logon to Khanacademy.org to continue to review material that has already been taught. They would need to login with their google email account from the school. Their goal would be to raise their percentage 10% from their current percentage.
- 2) If the student does not have online access they may do the attached work. It is all review material and every worksheet should have examples done for the students.

### **Science**

Please encourage your student to access the Science Google Classroom page to engage in a variety of choice board reviews, simulated labs, activities, and more for continued practice in our Ecology unit. For learning opportunities that are not online, please contact the middle school office for a printed set of instructional materials. If you or your student have any questions or concerns while enjoying the activities, please leave comments on the Google Classroom board, or contact me directly through email at [ritt\\_young@tccsa.net](mailto:ritt_young@tccsa.net) and I will assist you in your learning in any way I can.

### **Social Studies**

I would like for us to take this time to continue to learn more about the Dark Ages. I have put several read and answer papers on the website for you to read at your own pace. Please write the letter answers on a piece of notebook paper and you can hand it in once we all get back to the classroom.

## **STEM**

Stem 7 has been working on Coding (2). They will need to complete the worksheet. In addition, they will need to complete Graph Paper Programming (3). Both assignments will be uploaded on the school website and due on M/T on the second week upon our return. This will give them time to attend Working Lunch to receive additional help if needed.

## **VISUAL ARTS**

A List of Activities is available in the main office or on the school website.
